About VI.NO.SO

The festival and community were created in 2018 by Yannick, Floor and Bruno, with the simple idea to celebrate natural wine making styles and its makers from near and far, in our beloved Amsterdam. Since our first edition sold out and was full to the brim with dazzling wines and brand new friends, we decided to do it all again this year. The venue is bigger but the idea is the same: any excuse to sip and to learn in good company.

Participating winegrowers have been selected according to the following criteria:

- grapes from organic or biodynamic viticulture;
- use of indigenous yeast;
- no fining or filtration;
- no additives during vinification;
- max 35 mg/l of total sulphur

**If you are what you drink — we choose to refuse fake and boring.
Everything else, we love to meet and discuss!**
